NOTE TO SHOW CHAIRMEN: Please feel free to call on the judges listed in this bulletin for your 1957 Hibiscus Shows. If I have missed anyone you will find them listed in the May 10, 1957 "SEED POD" Bulletin.

HELLO OUT THERE IN CALIFORNIA - Thanks to Mrs. Weston Walker of Santa Ana, California, we are learning about the culture of Hibiscus on the west coast.

Greetings to you Mrs. Marah Adams for being so generous with your information in your garden section of the THE REGISTER and congratulations for having an Hibiscus named for you. I am most anxious to know more about the blossom and growing habits of your plant.

We received a nice report from Mrs. Evelyn Nichols, Chairman of the "Indoor Culture" group of Maryland-Washington-Virginia. We will carry a full report in our May 10, 1957 "SEED POD". In the meantime we want to thank you for the wonderful article published in Popular Gardening Magazine this month (Feb.). Everyone interested in growing the Tropical Hibiscus indoors should read this article. Thanks, Evelyn, you are doing a great job and we are looking forward to having you visit us this summer.

THE PRESIDENT'S MESSAGE

The Loyalty of men and women has always been the heart and nucleus of any successful group action. Whether it is served in the dramatic background of a battle or in a battle, what appears to be the routine nature of our Society work, it is equally important. Our membership expects this kind of loyalty. Any break-down in this important attribute weakens the workers position, and it is not easily rebuilt. Make this loyalty a part of your personality, your Society needs it, and successful work demands it. The only standards of success in the Society are those we established ourselves, the only actually good working patterns are those we follow through with interest and ambition.

....W. Bruce Parnell
